SKIN GRAFTING A SUCCESS.

Alfred Manning, Patient at St. Joseph's Hospital, is Now Improving.

Saturday morning at St. Joseph's Hospital one of the few skin grafting operations that has been performed in this city was successful, being performed by one of the staff of the hospital's surgeons. The patient was Alfred Manning of South Windham, who was severely burned on the leg by hot water last summer. The case was a very bad one, as the burns refused to heal, and the physicians in charge finally decided that skin grafting was the only means of improving Mr. Manning's condition.

An appeal to people to give skin grafting a try was made by a number of volunteers, who backed down when the final time for the giving up of the requisite amount of real skin came. One volunteer, however, was possessed with the right amount of nerve, and that one was Mrs. John Bower of Johnston avenue. She withstood the process nicely, but is confined to her bed. Mr. Manning, to whom the skin was transferred, is reported as doing very well at the hospital.

On the dining table was a large aeroplane in which was seated a witch, with black cats for passengers; it was lighted with candles. This was made by the young host and was greatly admired. The table was laid with Hallowe'en runners and napkins and lighted with candles. Overhead were yellow and black streamers and a yellow moon overlooked the scene.
